

Circling Hybrid Tees

New at Circling Hills: Gray Hybrid Tees Now Available!

We're excited to introduce a new option to help make your rounds at Circling Hills more enjoyable — Gray Hybrid Tees have been added to the course!

These tees are part of our commitment to the Tee It Forward initiative, encouraging golfers to play from a set of tees that best suits their game. By offering a shorter, more manageable yardage on certain holes, we're helping players keep up the pace, score better, and enjoy the game even more.

Who are the Gray Tees for?

If you usually play from the White Tees but find a few of the longer holes a bit too demanding — the Gray Tees are a perfect fit. They give you the same overall challenge and course strategy you're used to, with just a bit of relief on those tougher shots.

Why You'll Love the Gray Tees:

Maintain your usual game feel

Less pressure on longer holes

Smoother pace of play

More fun, more birdie chances!

We've listened to your feedback and designed these tees to bridge the gap — helping all golfers, from experienced players to those easing into the game, get the most out of every round. Next time you're at Circling Hills, give the Gray Tees a try. You might find they're exactly what your game has been missing.
